## FULL STACK DEVELOPER

Full Stack Developer with around 2 years of professional experience and strong knowledge in both **front end** technologies like **JavaScript, React.js** and **backend** with **Java, Spring boot**. I thrive in agile team environments and can contribute in each phase of the end-to-end development. Thanks to my familiarity with **AWS** cloud and **CI/CD** technologies. I have great attention to details and **problem solving** skills. I'm looking for opportunities to put my Web Development expertise in use, grow professionally and contribute to my companies' success.

## Skills

**Languages:** JavaScript, Java

**Web Development:** React, Node.js, Next.js, RestAPI, Spring-boot, HTML, CSS, Sass, Bootstrap

**Database:** PostgreSQL, MySQL

**Cloud:** AWS, Heroku, Netlify

**DevOps:** Docker, CI/CD

**Tools & Technologies:** Git, Postman, Material-UI, Figma, WebFlow, RapidAPI

**Soft Skills:** Communication, Problem Solving, Agile Methodologies, Creativity, Teamwork, Leadership, Ownership, Self-Learning, Active Listening

## EXPERIENCE

### Web Developer – Soft-Plus

*Uchtepa district, Tashkent city, Uzbekistan • Oct 2019 – Aug 2021*

#### Tasks Performed:

- Designed, developed, tested and deployed full-stack enterprise projects in agile teams of 5.
- Performed code reviews and optimizations for existing projects.
- Worked with a team of developers to create an e-commerce website using React.JS and Node.JS for backend processing.
- Created reusable components that were easily maintainable, tested, and documented for future development teams.
- Collaborated with designers on UI/UX design specifications and translated designs & wireframes into high-quality code.
- Developed highly responsive user interface components via React concepts.

**Technologies Used:** JavaScript, React, Node.js, PostgreSQL, Postman.

## EDUCATION

### 1. Bachelor's Degree in Computer Sciences (Oct 2021 – Jun 2025) GPA(4,7/5)

*University of Economics and Human Sciences, Warsaw, Poland*

#### Key Courses:

- |   |                                   |
|---|-----------------------------------|
| • Algorithm & Complexity                    | • Databases (MySQL)               |
| • Computer Systems Architecture             | • Programming Paradigms           |
| • Discrete mathematics                      | • Operating Systems               |
| • Basics of Programming                     | • Network Technologies            |
| • Graphics and Human - Computer Interaction | • MVC web application development |
| • REST – oriented web services              | • Software Engineering            |
| • OOP in JavaScript                         | • Cloud-oriented Web applications |
| • Website Development                       | • Security of Web applications    |

#### Languages

- English: B2 (Proficient in written and spoken)
- Turkish: B1 (Basic in written and spoken)
- Uzbek : Native Language
