Full-Stack Developer

Passionate **Full-Stack Developer** with over 5 years of experience in web development, specializing in **JavaScript**, **Java**, **React.js**, **Spring Boot**, and **Node.js**. Proficient in designing scalable applications, optimizing databases, and implementing **REST API**s. Experienced in deploying applications with **AWS**, **Docker**, and **CI/CD** pipelines. Strong in **Agile** methodologies, problem-solving, and software architecture. Currently working at **DATA UNION LLC**, delivering high-quality software solutions while staying at the forefront of emerging technologies.

Skills

Programming Languages: JavaScript, Java
Frontend: React.js, Next.js, Redux, Tailwind CSS, React Native, Zustand
Backend: Node.js, Express.js, Spring Boot, REST API
Databases: MongoDB, PostgreSQL, MySQL
Cloud & DevOps: AWS, Docker, CI/CD
Tools & Technologies: Git, Postman, Material-UI, Figma, WebFlow, RapidAPI
Soft Skills: Teamwork, Ownership, Problem-Solving, Communication, Agile Methodologies, Creativity, Leadership, Self-Learning, Active Listening.

EXPERIENCE

Full-Stack Developer – DATA UNION LLC *(remote)*
V. Fayozov 5, Urgench, 220100, Uzbekistan • Feb 2022 - Present

- Developed scalable web applications using **React.js, Node.js,** and **Java (Spring Boot)**, ensuring high performance and user-centric design. Designed and optimized **REST**ful **API**s, integrating third-party services and improving database performance.
- Enhanced deployment pipelines with **AWS, Docker,** and **CI/CD**, automating processes and improving system reliability while collaborating with cross-functional teams in an **Agile** environment.
- Conducted **code reviews**, mentored junior developers, and implemented **best coding practices**, continuously researching emerging technologies to improve **scalability, security,** and **performance**.

Web Developer – Soft-Plus
Uchtepa district, Tashkent city, Uzbekistan • Oct 2019 – Jan 2022

- Designed, developed, and maintained **React** applications, **collaborating** with UX designers and business analysts to create user-friendly interfaces. Implemented **state management with Redux** for efficient data flow and scalability.
- Integrated **Bootstrap, Material-UI**, and other design systems for a consistent UI/UX while optimizing applications for performance and responsiveness.
- Worked on **migration projects**, upgrading **large-scale applications** across JavaScript frameworks while ensuring compatibility and performance.
- Utilized **Jest and React Testing Library** for unit testing and collaborated in **Agile teams** to deliver high-quality solutions meeting business requirements.

EDUCATION

Bachelor's Degree in Computer Sciences (*Oct 2021 – Sep 2025) GPA (4,7/5)*
University of Economics and Human Sciences, Warsaw, Poland
Key Courses:

- OOP in JavaScript, Algorithm & Complexity, Software Engineering, Programming Paradigms
- Databases (MySQL, MongoDB), Cloud-oriented Web Applications, REST APIs, Network Technologies
- MVC Web Applications, Hybrid Mobile App Development, Progressive Web Apps, Computer System Architecture

Languages

- English: B2 (Proficient in written and spoken)
- Uzbek: Native Language
