Phone : +99-899-517-58-63; +99-890-111-54-97   Address: Khorezm, Shovot, Fayzobod 7.

Objective

I am a passionate Junior Full Stack Developer with strong knowledge and problem solving skills. I have practical experience with front end technologies like JavaScript, React.js, HTML, CSS, Sass, Bootstrap, figma, Git, netlify. I also have basic knowledge in backend and database technologies such as Java, Spring, Hibernate and PostgreSQL.

Work experience

DATA learning Centre   Aug 2020 — Present

Teaching Front end

Educating students in the Frontend area of web programming: I have taught these given technologies: HTML, CSS, Bootstrap, Sass, JavaScript. Go, Figma, Netlify, Hosting.

OKS Technologies   January 2020 — May 2020

Front-end developer

I basically convert web pages from simple graphical form to code and I have also divided web pages to separate components in React.
